

AN ACT

relating to rainwater harvesting and other water conservation initiatives.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Subchapter A, Chapter 59, Finance Code, is amended by adding Section 59.012 to read as follows:

Sec. 59.012. LOANS FOR DEVELOPMENTS THAT USE HARVESTED RAINWATER. Financial institutions may consider making loans for developments that will use harvested rainwater as the sole source of water supply.

SECTION 2. Section 447.004, Government Code, is amended by amending Subsection (c-1) and adding Subsection (c-3) to read as follows:

(c-1) The procedural standards adopted under this section must require that:

(1) on-site reclaimed system technologies, including rainwater harvesting, condensate collection, or cooling tower blow down, or a combination of those system technologies, for potable and nonpotable indoor use and landscape watering be incorporated into the design and construction of:

(A) ~~[(1)]~~ each new state building with a roof measuring at least 10,000 square feet; and

(B) ~~[(2)]~~ any other new state building for which the incorporation of such systems is feasible; and

1 (2) rainwater harvesting system technology for
2 potable and nonpotable indoor use and landscape watering be
3 incorporated into the design and construction of each new state
4 building with a roof measuring at least 50,000 square feet that is
5 located in an area of this state in which the average annual
6 rainfall is at least 20 inches.

7 (c-3) The procedural standards required by Subsection
8 (c-1)(2) apply to a building described by that subdivision unless
9 Subsection (c-2) applies or the state agency or institution of
10 higher education constructing the building provides the state
11 energy conservation office evidence that the amount of rainwater
12 that will be harvested from one or more existing buildings at the
13 same location is equivalent to the amount of rainwater that could
14 have been harvested from the new building had rainwater harvesting
15 system technology been incorporated into its design and
16 construction.

17 SECTION 3. Section 341.042, Health and Safety Code, is
18 amended by amending Subsection (b) and adding Subsections (b-1),
19 (b-2), and (b-3) to read as follows:

20 (b) The commission by rule shall provide that if a structure
21 is connected to a public water supply system and has a rainwater
22 harvesting system, ~~[for indoor use]~~

23 ~~[(1)]~~ the structure must have appropriate
24 cross-connection safeguards~~[, and~~

25 ~~[(2) the rainwater harvesting system may be used only~~
26 ~~for nonpotable indoor purposes].~~

27 (b-1) The commission shall develop rules regarding the

installation and maintenance of rainwater harvesting systems that are used for indoor potable purposes and connected to a public water supply system. The rules must contain criteria that are sufficient to ensure that:

(1) safe sanitary drinking water standards are met;

and

(2) harvested rainwater does not come into communication with a public water supply system's drinking water at a location off of the property on which the rainwater harvesting system is located.

(b-2) A person who intends to connect a rainwater harvesting system to a public water supply system for use for potable purposes must receive the consent of the municipality in which the rainwater harvesting system is located or the owner or operator of the public water supply system before connecting the rainwater harvesting system to the public water supply system.

(b-3) A municipality or the owner or operator of a public water supply system may not be held liable for any adverse health effects allegedly caused by the consumption of water collected by a rainwater harvesting system that is connected to a public water supply system and is used for potable purposes if the municipality or the public water supply system is in compliance with the sanitary standards for drinking water adopted by the commission and applicable to the municipality or public water supply system.

SECTION 4. Chapter 580, Local Government Code, is amended by adding Section 580.004 to read as follows:

Sec. 580.004. RAINWATER HARVESTING. (a) Each municipality

1 and county is encouraged to promote rainwater harvesting at
2 residential, commercial, and industrial facilities through
3 incentives such as the provision at a discount of rain barrels or
4 rebates for water storage facilities.

5 **(b) The Texas Water Development Board shall ensure that**
6 training on rainwater harvesting is available for the members of
7 the permitting staffs of municipalities and counties at least
8 quarterly. Each member of the permitting staff of each county and
9 municipality located wholly or partly in an area designated by the
10 Texas Commission on Environmental Quality as a priority groundwater
11 management area under Section 35.008, Water Code, whose work
12 relates directly to permits involving rainwater harvesting and each
13 member of the permitting staff of each county and municipality with
14 a population of more than 100,000 whose work relates directly to
15 permits involving rainwater harvesting must receive appropriate
16 training regarding rainwater harvesting standards and their
17 relation to permitting at least once every five years. Members of
18 the permitting staffs of counties and municipalities not located
19 wholly or partly in an area designated by the Texas Commission on
20 Environmental Quality as a priority groundwater management area
21 under Section 35.008, Water Code, whose work relates directly to
22 permits involving rainwater harvesting and members of the
23 permitting staffs of counties and municipalities with a population
24 of 100,000 or less whose work relates directly to permits involving
25 rainwater harvesting are encouraged to receive the training. The
26 Texas Water Development Board may provide appropriate training by
27 seminars or by videotape or functionally similar and widely

1 available media without cost.

2 (c) A municipality or county may not deny a building permit
3 solely because the facility will implement rainwater harvesting.
4 However, a municipality or county may require that a rainwater
5 harvesting system comply with the minimum state standards
6 established for such a system.

7 (d) Each school district is encouraged to implement
8 rainwater harvesting at facilities of the district.

9 SECTION 5. Section 5.008(b), Property Code, is amended to
